

Ms. Annie Bookmyer
Third Grade Teacher

Ms. Annie Bookmyer has been teaching since 2005, when she graduated with a Bachelors degree from Ohio University in Early Childhood Education. She has since earned a Masters degree in Reading Education from Xavier University. Ms. Bookmyer was herself a student at Saint Gertrude School, and joined our faculty in 2006 when she started as a long-term substitute for another teacher. She loves teaching math because there are just so many ways to achieve an answer! She also enjoys reading and has loved starting Book Club in the third grade. Her favorite project is the Planet Project: the students research a planet, create a PowerPoint, and present to the class. It is truly amazing to see their work! One of the reason Annie became a teacher is because everyday is a new adventure.
